PROFESSIONAL SUMMARY

Business & Data Analytics Professional with over 25 years of international experience in business operations, administration, customer service, sales, human resources, and organizational management. A data-driven, adaptable, and dependable professional with a proven ability to improve processes, support decision-making, and coordinate business operations. Currently completing a Data Analyst Diploma at Trios College, developing expertise in SQL, Python, statistics, data visualization, reporting, and business intelligence. Combines extensive leadership experience with strong analytical and administrative capabilities to support organizational efficiency, accurate reporting, and business growth, targeting administrative and data support roles in the insurance and business services sector.

SUMMARY OF QUALIFICATIONS

- Over 25 years of experience supporting business operations, administration, customer service, and organizational performance across diverse industries.
 - Strong proficiency in Microsoft Office Suite, including Advanced Excel, Word, PowerPoint, and Outlook for reporting, documentation, and data management.
 - Knowledge of SQL databases, Python programming fundamentals, data visualization, business intelligence, and data analysis concepts.
 - Experience preparing reports, maintaining records, managing documentation, and coordinating administrative activities.
 - Proven analytical, organizational, and problem-solving skills with a strong attention to detail and commitment to accuracy.
 - Demonstrated ability to communicate effectively, collaborate with teams, and build positive relationships with clients, colleagues, and stakeholders.
 - Recent Canadian internship experience supporting office administration, data entry, customer service, and operational reporting.
